Navigating Chemical Safety

with Senior Advisers of MN-AM

We are very happy to introduce **Professors James Rathman** (Ohio State University, Chemical & Biomolecular Engineering) and **Mark Cronin** (Liverpool John Moores University, Department of Pharmaceutical Science) as senior advisers of MN-AM. Their vision and years of knowledge in risk assessment, building on expertise in their own disciplines, have contributed to approaches implemented in ChemTunes•ToxGPS®. In this session, Jim and Mark will demonstrate new features and functionalities of the new version, coming soon in 2022. This updated features reflect new designs based on use cases from customers and scientific research. We look forward to seeing you!

Chihae
CEO of MN-AM

Where: San Diego Convention Center Room 23B
When: Monday, March 28, 4:30 – 5:30 pm US PDT

COSMOS NG

It has now been a decade since the first COSMOS DB was released from the COSMOS Project. We are again happy to continue our commitment to public sharing of data and in silico knowledge. In collaboration with MN-AM, ***Professor Mark Cronin*** will discuss our vision for expanding this effort over the next decade through the COSMOS DataSharePoint.
