

# Navigating Chemical Safety

*with Senior Advisers of MN-AM*

We are very happy to introduce Professor **James Rathman** (Ohio State University, Chemical & Biomolecular Engineering) and Professor **Mark Cronin** (Liverpool John Moores University, Department of Pharmaceutical Science) as senior advisers of MN-AM. Their vision and years of knowledge in risk assessment, building on expertise in their own disciplines, have contributed to approaches implemented in ChemTunes•ToxGPS®. In this session, Jim and Mark will demonstrate a use case developed in developed in Cosmetics Europe's CE-TOXGPS project.

We look forward to seeing you!

*Chihae*

*Where:* Nashville Convention Center Room 101C  
*When:* Tuesday, March 21, 4:30 – 5:30 pm US CDT

## COSMOS NG

We are happy to continue our commitment to public sharing of data and in silico knowledge. In collaboration with MN-AM, Professor **Mark Cronin** will discuss a few international initiatives where COSMOS NG is being critically served.
